

GOLDCHER BIO 2026

French DJ and producer GOLDCHER has built his sound somewhere between house, disco, indie dance and Afro influences.

With over 35 million streams and shows across more than 15 countries, his music has been supported by Keinemusik, Adriatique, HUGEL, Rivo, MoBlack and many more, featured on BBC Radio 1 with Pete Tong, alongside a release with Tiësto.

And it feels like things are only getting started.

Growing up by the Atlantic probably left a mark a need to move, discover new places, meet new people and rarely stay comfortable for too long. Today, life happens somewhere between airports, oceans, studios, friends and dancefloors. Sometimes planned, most of the time not.

Making music, going places and collecting stories along the way.

Blue Mind.
